

## Kennel „z Bojnicky udonov“

When I was child, I dreamed to have English cocker at home. This one was multicolored from the neighbors, just borrowed for walk, but we were big friends:

### I.

My dream came true when I got married and my wife had an understanding for my special hobby. The first dog in 1992 was red Cocker ... **Elsa z Kančího žlebu** from family Dobrovolní from Brno.

### II.

The first two litters A and B, were after the black bitch - **Tercia z Vejmínu** /year 1996/ from Mr. Šulc, but the owners did not have show ambitions.

### III.

We welcomed a beautiful red bitch to our family in 2010 ... **Xanthic Black Petrs** from Mr. Studeník. I am grateful him for his help in starting my breeding work and for choosing a small bitch with an excellent character which she gave also to her puppies. She is the founder of our breeding who deserves a lot of love and respect.

## Dogs used for breeding after Xanthic Black Petrs

**EMÍR**

Juniorchampion, 3x CAJC

## V.

Red bitch **Amélia od Bukové studánky** - VP1, 2x CAJC, 4x CAC, breeder Iva Maršíková, came to us in 2018. The puppy of her with high potential for shows and breeding is the red dog O.Romeo.

The young O.Romeo with mother

## VI.

The youngest female in our kennel is **SILVERY - SNOWBALL SWING** - VP1, 1x CAJC, 3x CAC, 1x reserve CAC, red color, from the very high experienced Hungarian breeder Bauman Anita Spanita. I strongly believe that she will be the great contribution to our breeding effort and she will support the breeding in Slovakia at all with her qualities.

My breeding intention is to improve the quality and breeding of English Cocker Spaniels in Slovakia. With my sustained effort I want to highlight the character and exterior characteristics of this beautiful breed and bring pleasure to future owners.

At the end I would like to sincerely thank the owners for the excellent presentation and exemplary care of our litters. I wish them much pleasure and success in the future.
